IW

for the following articles:

Woven fabrics made of cotton yarns and cotton yarns with addition of polyester or polyamide yarns or linen and polyester yarns (PES, PA share up to 50%) with or without CF or MTF fibres; printed with pigments as well as reactive, vat and disperse dyes, dyed, colour woven, bleached, including cotton fabrics with bacteriostatic finish and cotton-polyester fabrics with insect repellent (PIN) finish accepted by Oeko-Tex; excluding emerized fabrics (SGL, SC) and fabrics with flame retardant finish (OGN)

The results of the inspection made according to Oeko-Tex® Standard 100, **product class II** have shown that the above mentioned goods meet the human-ecological requirements of the standard presently established for products with direct contact to skin.

The certified articles fulfil the requirements of Annex XVII of REACH (incl. the use of azo-dyes, nickel, etc.) as well as the American requirement regarding total content of lead in children's articles (CPSIA; with the exception of accessories made from glass).

The holder of the certificate, who has issued a conformity declaration according to ISO 17050-1, is under an obligation to use the Oeko-Tex® mark only in conjunction with products that conform with the sample initially tested. The conformity is verified by audits.

This authorisation is valid until 31.10.2015
