Institute of the International Association for Research and Testing in the Field of Textile Ecology

The company

Invista Fibers Co., Ltd.

Invista Fibers Shanghai Co., Ltd.

No. 603 Huaqing Road

201700 Shanghai, CHINA

is granted authorisation according to Oeko-Tex® Standard 100 to use the Oeko-Tex® mark, based on our test report 14.0.49773

Tested for harmful substances
according to Oeko-Tex® Standard 100

13.HUS.29516

Hohenstein

for the following articles:

Spandex (elastane) yarns, Lycra® and ELASPAN® yarn, raw and white.
Note: diverse tested filament fibres contain more than 0,1 % (but less than 3 %) of DMAc (N,N-Dimethylacetamide) and have to be treated hot (in wet or in dry stage) during further processing. Mandatory testing to ensure that the solvent content has dropped below 0,1 % is necessary afterwards.

The results of the inspection made according to Oeko-Tex® Standard 100, **product class I** have shown that the above mentioned goods meet the human-ecological requirements of the standard presently established for baby articles.

The certified articles fulfil the requirements of Annex XVII of REACH (incl. the use of azo-dyes, nickel, etc.) as well as the American requirement regarding total content of lead in children's articles (CPSIA; with the exception of accessories made from glass).

The holder of the certificate, who has issued a conformity declaration according to ISO 17050-1, is under an obligation to use the Oeko-Tex® mark only in conjunction with products that conform with the sample initially tested. The conformity is verified by audits.

This authorisation is valid until 30.09.2015

Boennigheim, 15.10.2014
