1. By submitting this Tender we hereby ~~agree~~/do not agree (in case of disagreement – to which provisions and why) to all the terms and conditions of the procurement laid down in:

- 1) Notice of the Negotiated Procedure published on 29-01-2016 in the Central Public Procurement Portal (procurement No 171122);
- 2) Conditions of the Negotiated Procedure;
- 3) Other Contract Documents.

2. We offer to provide the services of pipeline cleaning and inner diagnostics for main gas pipeline Ryga-Panevezys-Vilnius DN700 for the following total price (for the purposes of comparison of tenders):

Total tender price (for the purposes of comparison of tenders) (excluding VAT) 159 975,00 EUR (one hundred fifty nine thousand nine hundred seventy five Euro)
(amount in figures and words)

The total tender price (for the purposes of comparison of tenders) includes of costs and taxes except VAT 21 %.

3. The total tender price for comparison purposes consists of the following components:

Phase No	Price components by phases	Prices of the phases, %	Price EXCLUDING VAT (EUR)
1	Main gas pipeline Ryga-Panevezys-Vilnius DN700		

1.1.	Assembling of the gas pipeline cleaning and diagnostic equipment including spare materials and pigs (EGP, MFL, TFI) as well as its delivery to the site of the Contracting Authority (equipment used in the two pipelines cleaning and diagnostics)		
1.1.1.	Assembling of the gas pipeline cleaning equipment including spare materials and cleaning pigs as well as its delivery to the site of the Contracting Authority (equipment used in the two pipelines cleaning)	10%	14 770.00
1.1.2	Assembling of the gas pipeline diagnostic equipment including spare materials and pigs (combined EGP+MFL, TFI) as well as its delivery to the site of the Contracting Authority (equipment used in the two pipelines diagnostics)	10%	14 770.00
1.2.	Preparatory works: checking the completeness and fitness of the gas pipeline cleaning and diagnostic equipment, pushing a test pig with a calibrating device through the gas pipeline, and issuing a report on the preparedness of the gas pipeline for diagnostic inspections	5%	6 750.00
1.3.	Gas pipeline cleaning by pushing the cleaning pig through the pipeline 5 times and assessing the pipeline's preparedness for inner diagnostics	23%	33 750.00
1.4.	Gas pipeline diagnostics (overall) including:		
1.4.1.	Checking the gas pipeline geometry with an EGP. Collecting data on the gas pipeline geometry (ovality, dents, corrugated elements etc.)		
1.4.2.	Checking the gas pipeline geometry and for metal corrosion, anomalies and other defects with combined EGP+MFL pig. Collecting data on such pipeline defects.	22%	33 356.00
1.4.3.	Checking the gas pipeline for metal corrosion, anomalies and other defects with a TFI pig. Collecting data on such pipeline defects.	20%	29 552.00
1.5.	Preparing a preliminary report enabling the assessment of the data on the gas pipeline's technical condition collected by means of combined EGP+MFL, TFI pigs, in particular the data on the most dangerous pipeline defects – within 30 days after pushing the diagnostic equipment through the pipeline.	5%	7 388.00
1.6.	Preparing the final report on the gas pipeline diagnostic services in both paper and electronic format (including a detailed analysis of the main defects, determining the spatial position of the pipeline, pipeline strength calculations, determining the pipeline's service life, and providing recommendations on correcting the defects) – within 30 days after the submission of the preliminary report.	5%	7 389.00
1.1.- 1.6.	Total contractual price of the procurement object excl. VAT:	100%	147 725.00
2	Prices/rates (total) for additional cleaning and diagnostic services which the Contracting Authority is not obligated to buy but which the Service Provider must render at the Contracting Authority's request if necessary including:		
2.1.	Additional cleaning of the gas pipeline with a cleaning pig by pushing the pig once (when the cleaning is performed more than 5 times)		6 750.00
2.2.	Additional checking of the gas pipeline geometry by pushing the EGP once.		
2.3.	Additional checking the gas pipeline pipeline geometry and for metal corrosion, anomalies and other defects with combined EGP+MFL pig once.		2 750.00
2.4.	Additional checking the gas pipeline for corrosion, anomalies and other defects by pushing an TFI pig once.		2 750.00
	Total price for tender comparison (excluding VAT):		12 250.00
1-2	TOTAL PRICE FOR TENDER COMPARISON (EXCLUDING VAT):		159 975.00
