16.3.2017

the limits of delivery, required to fulfil the operating characteristics and performance requirements and for the proper functioning and safe and reliable operations of the Works shall be part of the scope of supply, even if they are not especially defined or specified in this Contract. This means, among other things, that within the delivery limits all necessary equipment, piping, valves, safety devices, instrumentation etc. shall be included in the delivery unless specifically and expressly excluded in this Contract from the delivery.

The Contractor shall work in close co-operation with the Purchaser or his authorised representatives including but not limited to consultants and coordinators and also with the Purchaser's other contractors related to the Site including but not limited to contractors of piping, electrical equipment, control system and civil works.

The expression "is included in the delivery" means that the said equipment or work item is also included in the Contract Price.

Sub-clause 4.3, first paragraph, add the following new sentence: "The Contractor is aware of publicly known proposals for changes in Laws and Regulations which can be applicable to the Works, which have been adopted by the Parliament, Government or other legislative bodies of the Republic of Lithuania on or before Commencement Date".

Sub-clause 4.3, second paragraph, delete the last sentence and add the following new sentence: "However, the Purchaser's assistance does not decrease the Contractor's responsibility in ascertaining the Laws and Regulations in the country of the Site and this does not create any liability on the Purchaser."

Sub-clause 4.5., add the following sentence: "In case the Contractor proposes change of any Subcontractor, the Contractor shall furnish the Purchaser to the Purchaser's satisfaction evidence proving that the qualification of the new proposed subcontractor is at least equal to the initial Subcontractor."

#### **4 DOCUMENTATION (CLAUSE 5)**

Add new Sub-clause 5.5. in the following wording: "Without prejudice to the provisions of Appendix 6 hereto, all correspondence and documents in relation to the Contract and the Works shall be delivered mainly in English language. Any documents and materials required for the authorities (including, but not limited to documents for any permit applications, commissioning etc.), as well as training and Operation & Maintenance documentation shall be mainly delivered in Lithuanian language, as far as required by the relevant legal acts, particularly those related to CE marking. Also any other documents and materials shall be submitted in Lithuanian language, if so required under the Laws and Regulations applicable in the Republic of Lithuania. Any costs and expenses related to preparing or translation of the documents and materials into Lithuanian language shall be covered by the Contractor."

#### **5 REPRESENTATIVES, CO-ORDINATION, EXTENSION OF TIME (CLAUSE 6)**

Sub-clause 6.2, replace in its entirety with the following: "The Contractor shall prepare all needed time schedules according to the Appendices 5 and 6.

Sub-clause 6.5, replace the first part of the sentence with: "The Contractor shall be entitled to reasonable extension of Time for Completion, which shall be agreed by the parties as an amendment of the Contract, if the Time for Completion will be delayed by: [original list a-h from General Conditions]"

16.3.2017

Sub-clause 6.5, second paragraph, replace in its entirety with the following: The Contractor shall give an initial notice to the Purchaser without undue delay and at the latest within seven (7) days after the time when the Contractor becomes aware of or should have realised the need for extension according to Sub-clause 6.5 first paragraph. Within 14 days from giving the initial notice the Contractor shall give the Purchaser a detailed notice which shall state the reason for the extension, sufficient evidence on the impact of the delay on the critical path of the time schedule of the Contractor as well as the consequences of delay including the level of estimated compensation referred to under Sub-clause 7.6. Based on the detailed notice the Parties shall agree on the conditions of the amendment to the Contract, if any. Contractor shall be entitled to the above described extension only if the Contractor reasonably was not able to anticipate the circumstances serving as the ground for extension and only in case the particular circumstances in no way depend on the Contractor or any of its Subcontractors, suppliers or service providers.

Sub-clause 6.5, add a new third paragraph: "The Contractor shall be deemed to have the knowledge of and he shall take into account the simultaneous work by other contractors performed at the Site. Such work of other contractors employed by the Purchaser shall neither entitle the Contractor to extension of Time for Completion nor to any additional compensation provided that the works of the other contractors do not cause considerable delay to the Contractor's performance which an experienced contractor would not normally expect to meet in contract implementation in corresponding circumstances. However the last two sentences do not apply in the situation in which the works of the other contractors impede the completion of any of the activities being on the critical path of the Contractors time schedule."

## 6 WORK ON THE SITE (CLAUSE 7)

Sub-clause 7.6, last paragraph, delete it.

## 7 VARIATIONS (CLAUSE 8)

Sub-clause 8.1, delete second paragraph starting with: "The Contractor shall not, however, be obliged to---"

Sub-clause 8.2, add second paragraph: "The Contractor shall have obtained knowledge of the conditions at the Site. The Contractor shall not have right to demand variations based on conditions at Site except for conditions that a skilled and experienced contractor could not have reasonably foreseen."

16.3.2017

Sub-clause 8.3 add second and third paragraphs: "The Purchaser shall have the right to refuse not more than 10 (ten) % of the Works covered by the Contract due to unforeseen circumstances that occur or become known after the date of conclusion of the Contract, that the Parties could not reasonably foresee on the submission of a Tender or at the time of conclusion of the Contract, and the Parties had not assumed the risk of that set of circumstances. The price decrease as a result of refused works shall be identified as the Purchaser's work savings.

Assessing the nature of the Works to be provided, the risk of unforeseen circumstances occurring during the Works, the Purchaser may purchase any additional works that might be necessary in accordance with the original Contract. Additional works – are not covered by the Contract, but directly related and necessary for the performance of the Contract. In all cases, the Contract Price based on the above mentioned reasons, including variation, shall not increase by more than 10 (ten) % during the effective term of the Contract. In a case the Contract Price increases by more than described amount, all additional works have to be acquired by using separate procurement procedure, if and when so required by the applicable Laws and Regulations.

Sub-clause 8.5 add at the end of the first paragraph: "Potential effect of the variation on the Contract Price proposed in the Contractor's notification shall always be calculated based on the following rules: *i)* specific additional Works costs are calculated based on the evaluation of the direct (salary and related charges, construction products and machinery, machinery costs) costs and shall not be greater than the costs incurred by the Contractor to acquire them, and; *ii)* overhead costs and a profit margin shall not exceed 15% of the direct costs under *i)* and shall be agreed between the Parties in each particular case. Upon Purchaser's request or if so required by competent state or municipal authorities, the Contractor shall provide all the necessary evidence and explanations that the value of additional Works under the variation is calculated based on the above described principles.

Sub-clause 8.6, replace in its entirety with the following: "If examination of the variation requested by the Purchaser requires extensive study, the parties shall separately agree whether the study itself shall be treated as a variation or not."

Sub-clause 8.7, first paragraph, delete last sentence.

Sub-clauses 8.8, 8.10, 8.11 and 8.12, delete the Sub-clauses.

Sub-clause 8.9, first paragraph, delete.

Sub-clause 8.9, replace the second paragraph with: "The Contractor shall not be obliged or entitled to carry out a variation or a disputed variation before the parties have reached a written agreement on how it shall be carried out and its consequences and taking into consideration provisions of Sub-clause 8.5 (first paragraph), except for cases that the Purchaser deems need of immediate variation, especially for safety and/or environmental protection reasons, in which case the Contractor shall carry out the variation immediately even if the Parties have not reached a written agreement on the consequences."

## 8 PAYMENT, FINANCIAL SECURITY (CLAUSE 9)

Clause 9 add the following before Sub-clause 9.1: Contract Price. The Contract Price is fixed and shall not be adjusted, except for each 12 months after conclusion of the Contract the Contract Price may be adjusted by a mutual agreement of the Parties in accordance with the construction cost price index (type of construction "Engineering constructions") announced by the Lithuanian Statistics Department. The Contract Price may be changed as provided herein only if during the latter 12-month period the above mentioned price index has changed by

16.3.2017

more than 20 %. In case the above mentioned price index exceeds 20% in the latest 12-months period, the Parties shall commence negotiations to assess the actual impact of the changes in the prices to the Contract Price and costs (especially given the very specific nature of the Works) and agree in good faith on a fair adjustment level to the Contract Price. If an agreement is not reached within 30 (thirty) days after the commencement of such negotiations, and the Contractor does not agree to continue the Works for the initially agreed Contract Price (modified by possible variations), the Purchaser shall have the right to unilaterally terminate the Contract by a written notice to the Contractor. Agreed adjustment of the Contract Price shall be executed in written and signed by both Parties. Any adjustments to the Contract Price based on this clause shall only apply to the part of the Works to be performed after signing of the agreed Contract Price adjustment, and to the respective part of the Contract Price, but shall not have an effect to the Works performed before the agreed adjustments and the respective part of the Contract Price. Any adjustments to the Contract Price shall not apply to the Works delayed by the Contractor, which, if performed on due time, would not be subject to adjustments.

Contract Price: EUR 1.999.500,-

Total Contract Price: EUR 2.661.334,50 VAT included

The delivery shall be DDP (Delivered Duty Paid) at Site, VAT excluded, according to INCOTERMS 2010.

Sub-clause 9.1 Payment shall be made as follows:

16.3.2017

necessary guarantees as specified in Sub-clause 9.6 and securities for the Contractor's performance at the due date of the relevant payment and provision of the necessary supporting documents, if any.

The rate of interest on amounts to be repaid (Sub-clause 19.13) shall be Euribor of 12 months added with 4% per annum.

Sub-clause 9.2, delete Sub-clause 9.2.

**Sub-clause 9.4** replace the first sentence with the following: The Contractor may suspend the Contract by notice to the Purchaser if the Purchaser – despite a reminder and a notice that the Contractor intends to suspend the Contract unless he receives payment – has failed to pay an amount not reasonably disputed by the Purchaser within 30 days after the due date. The Contractor may not, however, suspend the Contract after the Purchaser has paid the amount due.

Sub-clause 9.6, replace Sub-clause 9.6 with the following: "The Purchaser shall not be obliged to disburse the first payment and respectively the payment at taking over until the Contractor has arranged for and delivered to the Purchaser first demand, irrevocable and unconditional guarantees (Advance Payment Guarantee or Warranty Guarantee respectively) as specified below issued by a bank holding long-term borrowing rating not lower than A- (A minus) assigned by Fitch Ratings (or an equivalent rating assigned by Standard&Poor's or Moody's) and registered in the Republic of Lithuania or another European Union Member State or a member state of the European Economic Area (EEA), or another international bank holding the above mentioned long-term borrowing rating.

**Option B: Bank guarantees + Parent company guarantee**

This Option B may be used by the Contractor only in case the potential issuer of guarantee has been approved by the Purchaser, based on evaluation of its financial standing and reputation. The Contractor willing to use this Option B shall apply the Purchaser with necessary particulars on the Commencement Date at latest.
